

It is the policy of Hinton, Perry & Davenhill Ltd that its operations, so far as is reasonably practicable, shall be conducted in such a way as to ensure:

- The operation of a Quality Management Systems that complies with the requirements of ISO 9001:2015
- The sustainability of the Environment with particular regard to land, air and water pollution that could be affected by its activities by operation of an Environmental Management System that complies with the requirements of ISO 14001:2015

The principles of successful Quality, and Environmental Management, will be integrated wherever possible and built in to all aspects of our day to day business.

An Integrated Business Manual and Policy Document has been developed which outlines the organisation, delegation of responsibilities and procedures which are to be followed in order to achieve the objectives.

The policies contained within the Business Management System will be reviewed annually at the Management Review. The contents will be made available to all staff, to customers upon request, and on the Company's website.

The needs and expectations of our customers and other interested parties are paramount in all our business activities and it is our intention not just to satisfy those requirements but to exceed them in all cases.

Hinton, Perry & Davenhill Ltd objectives will be prominently displayed in all locations.

The above objectives will be achieved by involving all our employees in a programme of Continuous Improvement that will be measured and monitored by the QHSE Controller who will report to Works Manager and Production Director on a regular basis.
